PROFESSIONAL SUMMARY

Cloud and DevOps-focused 2026 Electronics and Communication Engineering graduate with hands-on AWS, Linux, Docker, Jenkins, Kubernetes, and Infrastructure as Code project experience. Built CI/CD, serverless automation, and EKS deployments. Seeking an entry-level Cloud, DevOps, SRE, Infrastructure, or Platform Engineering role.

TECHNICAL SKILLS

Cloud & IaC: AWS (EC2, VPC, IAM, S3, ECR, ECS, EKS, CloudFormation, CloudWatch, CloudFront, CloudTrail, SNS, ALB, Auto Scaling), Terraform basics

DevOps: Linux, Git, GitHub, Jenkins, Docker, Docker multi-stage builds, CI/CD, Kubernetes (beginner)

Programming & Networking: Python, Java, Spring Boot (beginner), CCNA (Intermediate)

PROJECTS

AWS EKS Application Deployment with Fargate | AWS EKS, Fargate, ALB, IAM/IRSA, Helm, eksctl, kubectl

- Provisioned an EKS cluster with Fargate and deployed a containerized 2048 application using Kubernetes Deployment, Service, and Ingress resources.
- Configured OIDC and IRSA for the AWS Load Balancer Controller; deployed an internet-facing ALB and validated traffic flow to Fargate pod IPs.

GitOps CI/CD Pipeline with Jenkins | Jenkins, Maven, SonarQube, Docker, Argo CD, Kubernetes.

- Built a production-style CI/CD pipeline that automated Maven build, SonarQube quality analysis, Docker image creation, and image publishing to Docker Hub using Jenkins.
- Implemented a GitOps deployment workflow with Helm and Argo CD, enabling automatic synchronization of Kubernetes manifests and continuous application deployment to a Kubernetes cluster.

Event-Driven Serverless AWS Cost Optimization | Lambda, EventBridge, SNS, EC2, IAM, CloudWatch, Python.

- Built a scheduled Lambda automation that identified and deleted stale EBS snapshots using Python and Boto3.
- Configured IAM permissions, CloudWatch Logs, and SNS email summaries for secure execution, monitoring, and notification.

AWS Infrastructure Automation - CloudFormation | CloudFormation, EC2, VPC, Security Groups, Internet Gateway

- Created reusable CloudFormation templates to provision VPCs, public subnets, EC2 instances, routing, internet gateway, and security groups.
- Reduced manual infrastructure setup by implementing Infrastructure as Code (IaC), enabling consistent and repeatable environment deployments.

CERTIFICATIONS

- AWS Cloud Computing Certification – Besant Technologies
- DevOps Engineering Certification – Besant Technologies
- CCNA: Switching, Routing, and Wireless Essentials – Cisco NetAcad
- Kubernetes for beginners – KodeKloud

EDUCATION

College - KCG College of Technology

B.E. Electronics and Communication Engineering

Graduation: 2026

CGPA : 8.51/10

ACHIEVEMENTS

- People's Choice Award – Received ₹1,00,000 funding from La Trobe University, Australia
- Innovation Funding – Received AUD 800 funding from La Trobe University
- Runner-up – ECE Department Project Competition for IoT-based Avalanche Detection System
- Winner – ELECTROMINDZ Hackathon (Vivanta 2023).
- Finalist – Smart India Hackathon (Government of India).
